

Get your Business into the Business of Education

**You Can Help!
Sponsor an NIE teacher.**

When students do better in school, the whole community wins. By partnering with Newspapers in Education, your business can help provide teachers with classroom newspapers to improve student literacy, reinforce math skills and build student interest in the world around them. NIE provides teachers with lesson plans, curriculum guides, supplements, serial stories and educational contests throughout the school year. By sponsoring a teacher's classroom newspaper subscription, your contribution provides newspapers for classroom use right here in our local community. Plus, you'll receive a recognition plaque to display in your business, in-paper acknowledgement, recognition on the NIE web site and letters of thanks from students and teachers. Mail in this form today or call the Statesman NIE department at (512) 912-5903.
